

District wise affected habitations

Count of Water_Quality_Affected_Habitations.csv for each District Name. The data is filtered on Quality Parameter and State Name. The Quality Parameter filter keeps Arsenic, Fluoride, Iron, Nitrate and Salinity. The State Name filter keeps MAHARASHTRA. The view is filtered on District Name, which keeps 493 of 1,138 members.

District wise affected habitations

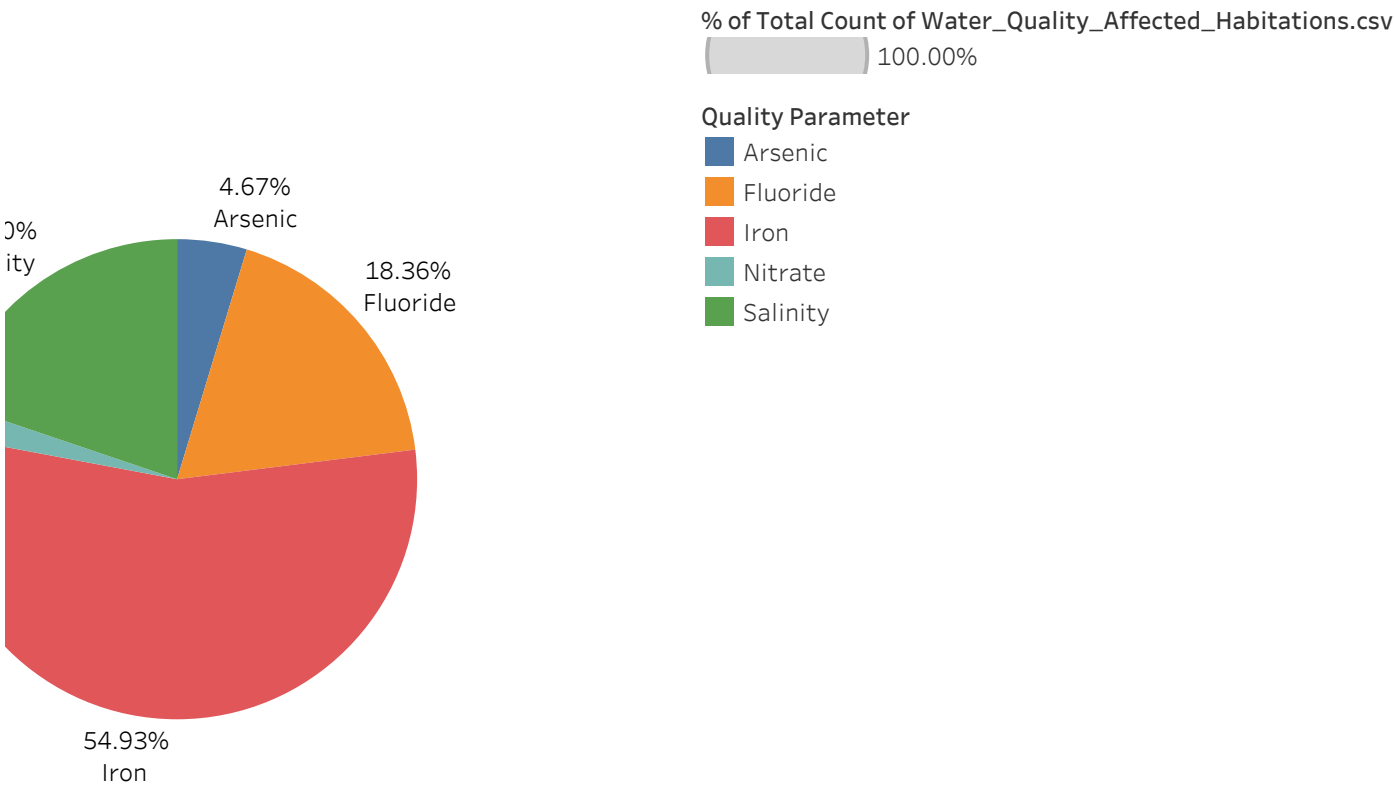

Count of Water_Quality_Affected_Habitations.csv for each District Name. The data is filtered on Quality Parameter and State Name. The Quality Parameter filter keeps Arsenic, Fluoride, Iron, Nitrate and Salinity. The State Name filter keeps MAHARASHTRA. The view is filtered on District Name, which keeps 493 of 1,138 members.

Present of Quality Parameter

% of Total Count of
Water_Quality_Affected_Habitations.csv and Quality
Parameter. Color shows details about Quality Parameter.
Size shows % of Total Count of
Water_Quality_Affected_Habitations.csv. The marks are
labeled by % of Total Count of
Water_Quality_Affected_Habitations.csv and Quality
Parameter. The data is filtered on Year Year, which keeps
2009, 2010, 2011 and 2012.

Present of Quality Parameter

% of Total Count of
Water_Quality_Affected_Habitations.csv and Quality
Parameter. Color shows details about Quality Parameter.
Size shows % of Total Count of
Water_Quality_Affected_Habitations.csv. The marks are
labeled by % of Total Count of
Water_Quality_Affected_Habitations.csv and Quality
Parameter. The data is filtered on Year Year, which keeps
2009, 2010, 2011 and 2012.

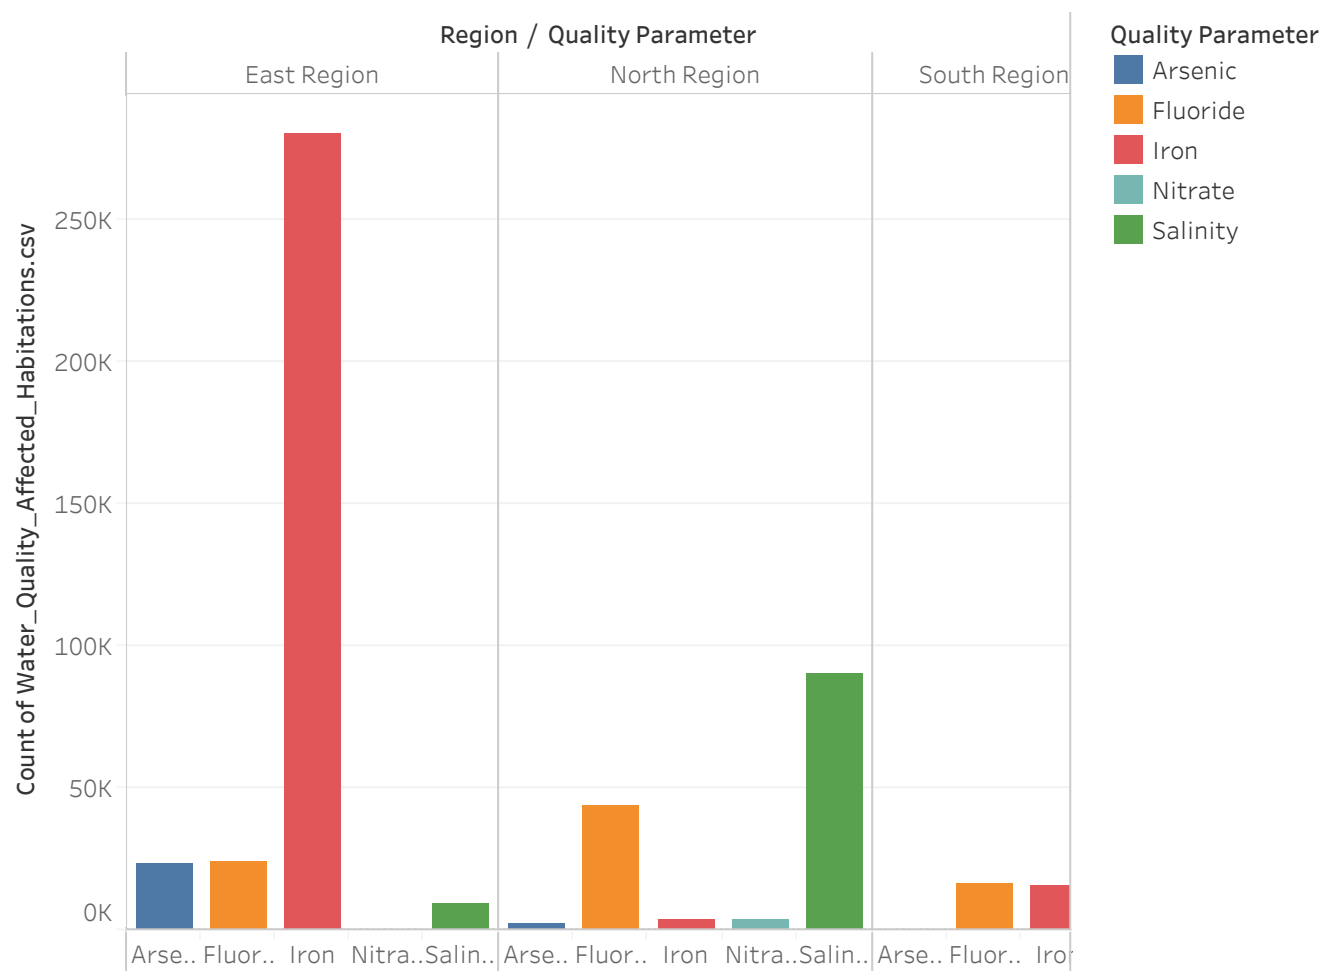

Present of Quality Parameter

% of Total Count of Water_Quality_Affected_Habitations.csv
(100.00%)

- Quality Parameter
- Arsenic
 - Fluoride
 - Iron
 - Nitrate
 - Salinity

% of Total Count of
Water_Quality_Affected_Habitations.csv and Quality
Parameter. Color shows details about Quality Parameter.
Size shows % of Total Count of
Water_Quality_Affected_Habitations.csv. The marks are
labeled by % of Total Count of
Water_Quality_Affected_Habitations.csv and Quality
Parameter. The data is filtered on Year Year, which keeps
2009, 2010, 2011 and 2012.

Region v/s Quality Parameter

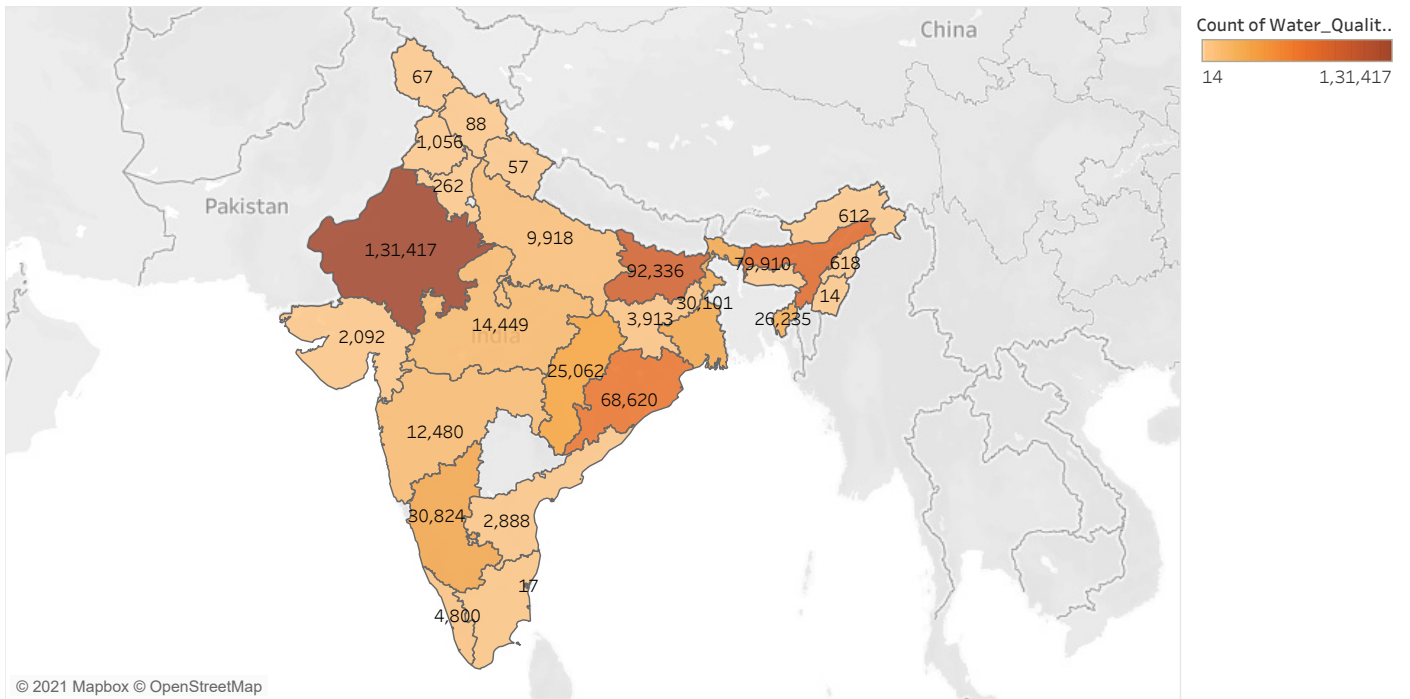

Count of Water_Quality_Affected_Habitations.csv for each Quality Parameter broken down by Region. Color shows details about Quality Parameter. The data is filtered on Year Year, which keeps 2009, 2010, 2011 and 2012. The view is filtered on Region, which keeps East Region, North Region, South Region and West Region.

Region v/s Quality Parameter

Count of Water_Quality_Affected_Habitations.csv for each Quality Parameter broken down by Region. Color shows details about Quality Parameter. The data is filtered on Year Year, which keeps 2009, 2010, 2011 and 2012. The view is filtered on Region, which keeps East Region, North Region, South Region and West Region.

State wise water quality affected habitation

Map based on Longitude (generated) and Latitude (generated). Color shows count of Water_Quality_Affected_Habitations.csv. The marks are labeled by count of Water_Quality_Affected_Habitations.csv. Details are shown for State Name.

Growth of the affected area over year

The trend of Moving Average of Count of Water_Quality_Affected_Habitations.csv for Year Year. Color shows details about Quality Parameter. The data is filtered on Region and Year Year. The Region filter keeps East Region, North Region, South Region and West Region. The Year Year filter keeps 2009, 2010, 2011 and 2012.

Year wise growth of affected habitations

Year Year for each District Name. Color shows details about Clusters. Size shows count of Water_Quality_Affected_Habitations.csv. Details are shown for District Name. The data is filtered on State Name and Quality Parameter. The State Name filter keeps MAHARASHTRA. The Quality Parameter filter keeps Arsenic and Nitrate.
